

Murray Associates
Introduction

Technical Information Security Surveys
& Counterespionage Consulting
for Business & Government

Greetings

Murray Associates conducts **Technical Information Security Surveys.**

Technical Surveillance Countermeasures (TSCM), or *sweeping for bugs*, is just one important part of our more holistic information security surveys.

We are an *independent* counterespionage consulting firm. This means our security recommendations are not biased by commissions or sales incentives. Your security and privacy interests always come first.

Our inspections solve security problems, such as:

- business espionage; illegal eavesdropping, voyeurism and tracking;
- information security / intellectual property loss loopholes;
- spying at off-site meetings; compliance with privacy laws; and much more.

Headquartered in the New York metropolitan area, a Murray Associates team can assist you quickly, anywhere in the United States, and internationally.

Thank you for considering our services. I look forward to solving *your* concerns.

Sincerely,

Kevin D. Murray – CPP, CISM, CFE, MPSC

OPERATING POLICY

MURRAY ASSOCIATES is a security consulting firm which limits its services to the: prevention of unlawful electronic surveillance; the protection of privacy; and the prevention of information theft.

We will endeavor to:

- Assure absolute confidentiality.
- Provide the most knowledgeable and effective services at a fair cost.
- Remain unbiased in our efforts and recommendations.

We will not accept assignments:

- Without a clearly stated purpose.
- To obtain privileged information.
- Which are against the best interests of the U.S government or its citizens.

— Kevin D. Murray, 1978

Surveys & Services

- Boardrooms
- Trading floors
- Executive suites

- Conference rooms
- Vehicles and aircraft
- Corporate apartments

- Quarterly Board meetings
- Off-site business meetings

- Executive homes & offices
- Individual privacy protection
- Expectation of Privacy areas

- WLAN security & compliance
- Counterespionage consulting
- Espionage vulnerability surveys

- Smartphone and mobile device security
- Business espionage detection and prevention
- Technical Information Security Surveys (TSCM)

The Plan

**Complete Three
Due Diligence Requirements**
with one economical visit from us.

The Process

- Initial discussion to learn about your corporate culture, security concerns and goals.
- Radio-frequency spectrum analysis for audio / video / data eavesdropping.
- Detailed visual inspection for covert devices and evidence of past espionage.
- Examination of communications instruments (phones, fax, LAN, Wi-Fi, etc.)
- Information security survey to alert you to other information-loss vulnerabilities.
- Written report with recommendations, resources and security checklists.

Why Trust Us?

Our History

Murray Associates was founded 1978. Prior to that, Kevin D. Murray was the Corporate Director for Electronic Countermeasures, & New Jersey Director of Investigations, for Pinkertons Inc.

Electronic surveillance and information loss detection is our sole speciality.¹

Our Certifications

- CISM - Certified Information Security Manager - Info. Systems Audit & Control Association
- CPP - Certified Protection Professional - American Society for Industrial Security (ASIS)

Note: The American National Standards Institute (ANSI) has accredited the CISM and CPP certification programs under ISO/IEC 17024:2003

- CFE - Certified Fraud Examiner - Association of Certified Fraud Examiners
- MPSC - Mobile Phone Seizure Certification - BK Forensics

Our Associations

- IAPSC - International Association of Professional Security Consultants
Periodic Board & Ethics Committee member.
- HTCIA - High Technology Crime Investigation Association
- ISACA - Information Systems Audit & Control Association (CISM)
- ASIS - American Society for Industrial Security (CPP)
- ACFE - Association of Certified Fraud Examiners (CFE)
- InfraGard (An FBI partnership with private sector security professionals.)

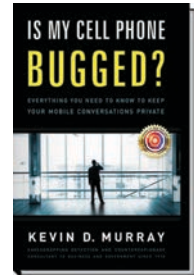

¹ Your biggest decision is not about money. It's about trust and competence. You need to know who you're letting in.

Our References

Chances are very good we have already helped a security director, or investigator you know. Please check with them, or contact us for a reference in your area.

Our Clients

“I recently used Mr. Murray on a case in (deleted), and I must say it was one of the most professional, well documented eavesdropping and counter espionage reports I have ever had the opportunity to view. My client was extremely pleased with the results, as was I.”

Professional Investigator from California

“As usual, it was great working with Murray Associates. While always exceeding expectations, they went above and beyond this time helping us de-bug an AV problem. This team is second to none.”

Managing Director, US Financial Institution

“This is my 2nd experience using your services. I found your co. prompt and professional. I also appreciated the extra time spent explaining what was being done.”

V.P. - Communications, Financial Services Firm

“Loved the whole approach and low-key attitude conveyed during the evaluation. This went far with explaining things to ‘the boss,’ who was on-hand during the review. The quality of the report is excellent and I love all the references. Great job and keep up the good work.”

IT Mg., Communications Technology

(See our [website](#), or Google Business for additional client comments.)

COMPARE

• Do they use Radio-Reconnaissance Spectrum Analysis SM	YES	
• Do they use advanced high-frequency Non-Linear Junction Detectors?	YES	
• Are they qualified to test VoIP phones and networks?	YES	
• Do they inspect for infrared emissions, fiber optic devices, etc.?	YES	

Engage Our Services

It's Easy.

1. Call us from a “safe” phone. Ask questions. Let us know your concerns.
We'll provide straight answers and experienced guidance - no obligation.
2. For a **Technical Information Security Survey** estimate, complete our one-page Worksheet (on the next page or [on-line](#)).
We will send you a cost-effective, written proposal – expenses included.
3. Upon your approval, we will schedule a convenient date for your survey.

“Do you need to see our location first?”

It is rarely necessary to inconvenience you – or tip your hand – with a preliminary visit. The Worksheet is all we need. If the assignment is extensive, a floor plan is helpful.

“Could you give me just a rough idea of the cost?”

Yes, we have some example assignments on-line at <http://counterespionage.com/services.html>. We can provide an accurate, custom proposal when you are ready.

“May I call you with additional questions?”

Please call any time with your questions (+1-908-832-7900), or visit our FAQ sections on the website, on the [About](#) and [Services](#) pages.

Until we arrive:

- Do not call us from, or discuss your concerns within, the suspected areas.
- Conduct your affairs as normally as possible.
- Do not reveal your suspicions to others unless there is a real need-to-know.
- Limit confidential conversations.
- Keep detailed notes on anything you feel is suspicious.
- Plan a logical next-step if an eavesdropping device is found. (We can help.)

Logistics

Murray Associates services are available any time, day or night, including weekends and most holidays at no extra charge.

Simply pick a mutually convenient date and time for an inspection. We will be there.

We even handle all travel arrangements for you.

Worksheet 2017

- Prepare one sheet for each address / building we will be visiting.
- Send us your completed Worksheet to us. (e-mail, fax* or mail)
You may also enter the information on-line at...counterespionage.com/estimates.html
- We will prepare an accurate written proposal for you promptly.

Let us know your concerns and goals.

Use this Worksheet to describe your project.

We will suggest a cost-effective strategy.

Our Estimate will even include travel expenses.

Have questions? We're just a phone call away.

What is the square footage of the areas to be inspected? _____ s/f

- ✓ An educated guess is fine. We will measure for you once on-site.
- ✓ Only include the square footage of the actual rooms, and/or cubicles requiring a full inspection. Do not include hallways or open floor space around cubicles.
- ✓ If possible, please send us a floor map showing areas to be inspected.
- ✓ Are there any vehicles (cars, aircraft, yachts) to be inspected? Use the Note section below.

How many communications items are in the areas to be inspected? _____

- ✓ Include: telephones, speakerphones, fax machines, video-teleconferencing units, etc.
- ✓ Are there any audio-visual equipment racks? _____

Expanded Radio Emissions Detection (audio, video & data)

- ✓ While there, we can conduct radio-frequency testing in other areas of your premises very economically. If desired, what is the approximate square footage of these areas? _____ s/f.

Additional Information

- ✓ Inspection Frequency: ____ Once ____ Biannually ____ Quarterly ____ Bimonthly. Other _____
(Multiple inspections are discounted.)
- ✓ Preferred appointment date? (No obligation; helps us to estimate travel expenses.) ____ / ____ / ____
- ✓ Anything else we should know? (construction, circumstances, suspects, special requests, etc.)
